

Catapult has completed an investment of up to £550,000 in CellAura Technologies Ltd, a provider of innovative screening products for the drug discovery industry.

Cellaura, a spin out from the University of Nottingham, is based in BioCity in Nottingham. The company's unique technology allows increased speed, reduced cost, greater accuracy and a superior safety profile relative to the existing technology in the field.

Catapult also introduced David George to the business who has joined the board of the company as an independent Non Executive Director.

Catapult provides equity capital of between £200k and £2m
for growing businesses
